

MARKET LIVELY FOR SHORT TIME FRIDAY

Large Volume of Business in Wall Street at Opening of Session.

ALL TIME FOLLOWED

in Copper Due to Statistics Showing Depletion in Surplus Stocks.

NEW YORK, June 21.—For a brief time the stock market acted as if it had divorced itself from politics and was things not exactly germane to the conditions by steering an independent course in the fifth hour when the volume of business assumed respectable proportions and gains were general, though an important instance, much over the advance embraced such a volume of business as to convey the impression of a demand.

The news that the convention at Chicago might run over into next week and the market best & slow but the movement except a few advances such as American Tobacco and Texas company. For the remainder of the session the market settled to a slight drift.

Explanation of the week's advance was furnished by statistics showing a remarkable depletion in the stocks of the metal here and in the bond market moved unsteadily, with changes. Total sales, par amounting to \$2,682,000.

State government bonds unchanged on call.

Closing Stock List.
